- The capacities are based on Under 40mm gravel, slump 8cm, strength 210kgf/cm²&60batch/hr
- The specifications are subject to change with or without prior notice for improvement.
- To be provide special specification according to customer requirement.

Mobile Concrete Batcher Plant

Mobile Concrete Batch Plant offers many advantages over previous the other type concrete batch plant.

- Simple installation, Transportation and dismantling without specialist engineer.
- It needs minimal itself keeping space after dismantled.
- The low cost of operation and maintenance.
- It is suitable for any construction project that requires a quick foundation work.
- Whole components mounted on one trailer.

모바일 콘크리트 배치 플랜트는 다른 모델보다 많은 장점을 제공함.

- 전문 엔지니어 없이 설치, 운송 및 해체가 가능함.
- 해체 후 최소한의 공간에 보관이 용이함.
- 운영 및 관리비용이 절감됨.
- 기초가 간단하여 모든 공사에 적합함.
- 설비 전체를 하나의 트레일러로 구성.

DMI Mixer

DMITwin Shaft Mixer (High Efficiency)

World proven quality & performance, DMI MIXER.

Ensure excellent mixing quality within very short time. With its compact design occupying minimum area and utilizing maximum space to improve easy maintenance works.

DMITwin Shaft Mixer (고성능)

세계적으로 증명한 우수한 품질과 성능의 DMI MIXER.

짧은 시간에도 우수한 Mixing 품질을 보장하며, 최소의 공간에서도 최적의 배치가 가능한 디자인으로 편리한 운전 관리의 장점이 있다.

Control System

User Friendly Control System

With the high speed operated full auto computerize controlled operation system.
Provides easy operation and input the basic data, mixing formula, time sequence.
Most advanced control software with reliable components enables trouble free operation.
Various mixing design, daily, monthly production records, individual material usage and automatic alarm system provide excellent production management.
Computer control system troubleshooting with internet remote A/S function

사용자 편의성의 콘트롤 시스템.

빠른 속도의 완전 자동화 운영 시스템.
기초 자료, 믹싱 배합 및 시간 설정을 간편하게 입력.
최신형 소프트웨어 사용 및 신뢰 할 수 있는 부품사용으로 최상의 조건에서 작동.
다양한 배합비 설정, 매일·매달 생산량 기록, 개별 재료 사용량 및 자동 알람 시스템을 제공하므로 우수한 생산 관리.
인터넷 원격 A/S 기능으로 콘트롤시스템 문제해결.
